

## Marine Transportation Industry

### General Capability

The Offshore Safety and Survival Centre (OSSC) as part of the Marine Institute, Canada's largest and most comprehensive marine training institution, has a long and successful history of delivering safety, survival and emergency response training to the marine transportation industry.

The OSSC is able to deliver training at its well-equipped facility in St. John's, on site at your company location or on board your vessels.

### Training Courses

The OSSC is able to deliver a full spectrum of standard courses to the marine transportation industry meeting Canadian and international standards in the following areas:

- Personal Safety and Survival
- Survival Craft Operations
- Firefighting
- Fast Rescue Boats and Rescue Boats
- Emergency Organization and Response
- Tanker safety
- Marine Environmental Response
- Medical Incident Response
- Stand by Vessel Training
- Passenger Vessel Training
- Rescue Team Training

The OSSC can design courses to meet your particular needs or specific environmental or legislative requirements in your area of operations.

### Accreditation

The OSSC is recognized as a training provider by Transport Canada. Courses delivered to the marine industry meet the requirements of Transport Canada, IMO STCW '95, Canada Newfoundland and Canada Nova Scotia Offshore Petroleum Boards (CNOPB, CNSOPB), and the Newfoundland and Labrador Department of Human Resources, Labour and Employment, as applicable.
