

Industrial Safety & Emergency Response Training

The Safety and Emergency Response Training (SERT) Centre offers a range of industrial safety and emergency response training courses to workers in industry as well as to safety or emergency response teams. The SERT Centre is also able to deliver training at suitable on site locations.

The SERT Centre is able to deliver courses to provincial or Canadian Standards or can design courses to meet your particular needs.

Training Courses

The SERT Centre can deliver a full spectrum of standard courses to industry and emergency response organizations in the following areas:

- Industrial Emergency Response
- Industrial Safety
- Firefighting
- Hazardous Materials

Additionally, the SERT Centre can design courses to meet your particular requirements or specific environmental or legislative requirements in your area of operations.

Courses Include:

- Confined Space Entry and Rescue
- Confined Space Awareness
- H2S Alive
- Industrial Fire Team
- Industrial Fire Team Leader
- Industrial Fire Watch
- Marine Confined Space
- Self Contained Breathing Apparatus (SCBA)
- Transportation of Dangerous Goods
- Basic Fire Extinguisher
- WHMIS
- Hazmat Response Team
- High Angle Rope Rescue
- Fall Arrest
- Portable Fire Extinguisher
- Emergency Spill & Response

Accreditation

Courses delivered meet the requirements of the National Fire Prevention Association (NFPA), Canadian Standards or the Newfoundland and Labrador Department of Human Resources, Labour and Employment, as applicable.
