Course Evaluation	Labs (8-10)		5%
	Lab Quiz		10%
	Quizzes (8)		5%
	Tests (2-3)		30%
	Final Examination		<u>50%</u>
	Total		100%

Labs start Monday, January 9. Lab Manual is required for Lab. Labs will be graded in the Lab slot. At the end of the term, an individual Lab Quiz will test your learning.

There will be 8 Quizzes throughout the term. For marking purposes, the best 6 will be used. This will allow for someone missing up to 2 Quizzes, if they happen to be sick. **No makeup Quizzes will be given.**

There will be 2 Tests throughout the term. If any student misses Test 1 or 2, a 3rd Test will be given on the last day of classes. Any student can write this last Test and the best 2 marks will be used for marking purposes. **No makeup Tests will be given.**

The Workbook contains all notes, assignments, solutions and review sheets. All testing material will be based on the Assignments, so it is important that **YOU DO YOUR ASSIGNMENTS!** The Assignments are your chance to learn the material required to complete this course and do **NOT** have to be handed in. You should concentrate on understanding the concepts.

Attendance will be taken and MI's attendance policy will be enforced.

The web site contains all class materials, assignments, solutions, extra questions, review sheets, simulations and interactive net applications. If you miss something, the information will be on the web site. To encourage you to access the web site, the solutions to last terms's quizzes are available. These will be removed February 20.
