

Are you looking for a long-term, rewarding and challenging career in Newfoundland's expanding Aquaculture industry?

Placentia Bay Ocean Enterprises has immediate opportunities for highly motivated Chief Officers to join our Harbour Breton-based crew.

Reporting to the Master you would be working on our brand new growing fleet of vessels equipped with the latest in positioning and aquaculture technology.

As part of our team, you would play a critical role in contributing to the safe, strong, sustainable growth of Newfoundland and Labrador's aquaculture industry.

As Chief Officer of the maintenance vessel crew, you would ensure that safety is at the forefront of all crew operations and work is carried out effectively and efficiently.

Primary duties of the vessel crew include rope splicing, grid installation and inspection/repair; cage and net installation and removal; net washing, cleaning of the vessel deck, general site maintenance.

All applicants must hold at a minimum a Watchkeeping Mate Certificate, Marine Emergency Duties (MED) certificate as well as a valid Seafarer's Medical. Rope splicing skills and experience are essential for this position. Marine Advanced First Aid, ROV and Crane Operations certification and experience are an asset. A minimum of two years' Chief Officer experience is also required.

Our total compensation package offers rotations that support work/life balance, competitive salary, as well as participation in our corporate health benefits program.

If you value safety, integrity and job satisfaction then we want to hear from you!

Qualified and interested candidates please forward your resumes by February 21, 2019 to careers@pboe.ca

We thank all applicants for their interest, however only those candidates selected for interviews will be contacted.
