

Are you looking for a long-term, rewarding and challenging career in Newfoundland's expanding Aquaculture industry?

Placentia Bay Ocean Enterprises has immediate opportunities for highly motivated Master Mariners to lead our Harbour Breton-based crew.

Reporting to the General Manager you would be working on our brand new fleet of vessels equipped with the latest in positioning and aquaculture technology.

As part of our team, you would play a critical leadership role in contributing to the safe, strong, sustainable growth of Newfoundland and Labrador's aquaculture industry.

As a leader of the maintenance vessel crew, you possess the ability to ensure that safety is at the forefront of all crew operations, all corporate policies and procedures are consistently followed and work is carried out effectively and efficiently. Excellent people management and communication skills are essential to build effective crew and organizational relationships.

Primary duties of the vessel crew include rope splicing, grid installation and inspection/repair; cage and net installation and removal; net washing, cleaning of the vessel deck, general site maintenance.

All applicants must hold at a minimum a valid Master Mariner 500 GT Near Coastal Certificate, Marine Emergency Duties (MED) certificate, Marine Advanced First Aid Certificate as well as a valid Seafarer's Medical. ROV and Dynamic Positioning certification and experience are an asset. A minimum of three years' Master experience is also required.

Our total compensation package offers rotations that support work/life balance, competitive salary, as well as participation in our corporate health benefits program.

If you value safety, integrity and job satisfaction then we want to hear from you!

Qualified and interested candidates please forward your resumes by February 21, 2019 to careers@pboe.ca.

We thank all applicants for their interest, however only those candidates selected for interviews will be contacted.
