

## **ALGOMA CENTRAL CORPORATION**

### **We are currently searching for qualified Watchkeeping Engineers to join our team!**

Reporting directly to the Chief Engineer, Watchkeeping Engineers are responsible for maintenance and upkeep of the generators, general service, drinking water, ballast, bilge and fire pumps, bow thruster hydraulics and diesel engine as well as all hoisting equipment in the engine room or on deck. As well to ensure documentation of all maintenance carried out is kept up to date in the planned maintenance system and/or the vessel files.

Candidates must possess:

- 4th Class Engineer, Motor Ship issued by Transport Canada
- Marine Medical issued by Transport Canada
- Certificate of Proficiency for Vessel Personnel with Security Responsibilities (preferred)
- Canadian passport or permanent residence status

If you are interested in a rewarding career with Algoma Central Corporation please send your resume to [careers@algonet.com](mailto:careers@algonet.com) and include "Watchkeeping Engineer – Dry Bulk" in the subject line of your email.

Algoma Central Corporation encourages application from designated group members identified under the Federal Employment Equity Act. We wish to thank all applicants in advance, however, only those selected for an interview will be contacted.
