

Project Manager

- **Company:** Ocean Industries
- **Location:** Isle-aux-Coudres
- **Service:** Administration
- **Work schedule:** 37.5 hours/week
- **Status:** Permanent

A BRIEF OVERVIEW OF WHAT TO EXPECT

Under the supervision of the Project Director, the incumbent oversees the completion of ship and barge construction and repair projects.

RESPONSABILITIES YOU WILL BE ENTRUSTED WITH

- Participate in operations related to shipbuilding and repair projects in accordance with work schedule and budgets;
- Collaborate with foremen and management to plan the overall work, milestones, and labor and material requirements in accordance with the agreed contract schedules and budgets;
- Collaborate in the development of contracts with foremen and management and participate in the negotiation of revisions, modifications and additions to contractual agreements;
- Follow up with clients;
- Complete orders for materials required for projects and forward them to the procurement department;
- Review customer's technical specifications related to the construction or repair of ships and barges and develop plans for the project if necessary;
- Inspect construction and repair work on ships and barges to ensure compliance with plans, specifications, classification society and Transport Canada standards;
- Act as a resource person for foremen and suggest ways to improve productivity;
- Resolve technical problems or refer them to a competent person in the field, as needed;
- Participate in the preparation of bids, in collaboration with management, and in subsequent negotiations;
- Carry out any other function assigned by his immediate superior.
