We are searching for

**Sustainability Manager Atlantic Canada**

We are seeking an experienced Sustainability Manager to join our new business unit and take responsibility for ensuring environmental compliance, sustainability, and innovation as well as managing regulatory affairs and relations with community and government stakeholders. You’ll be an expert at influencing and challenging in a positive way; and you’ll bring that positivity when demonstrating your capabilities in a role with ever-changing demands.

**Main responsibilities:**
- Manage relations with government regulators and elected representatives.
- Lead collaborative science to advance sustainability.
- Implement product certification programs, such as Best Aquaculture Practices and the Aquaculture Stewardship Council.
- Engage with First Nations, industry, academia, conservation groups and the local community.
- Understand all laws and regulations applicable to the salmon-farming sector.
- Solid understanding of salmon aquaculture, including freshwater and marine production, harvesting, fish health practices and environmental management.
- Securing environmental compliance, both internal and from our partners.
- Seawater and freshwater leases, Licenses, Amendments and Concessions.
- Monitor food safety and quality.

**The right candidate has:**
- Higher education in environmental management, biology or equivalent.
- Experience from authority management, quality management or environmental management.
- Solid experience from salmon production, and a track record of working constructively with planning, coordination and implementation of strategy and/or new processes.
- A “can do” attitude with excellent cooperation and communications skills.
- An innovative and challenging mindset with regard to strategy, and structured and systematic in implementation and execution.
- Loyalty to the company’s business, vision and values, and thus a role model.
- Service minded and trustworthy.
- Excellent written and spoken English.

Reporting to Managing Director, Jamie Gaskill, you will be a member of the Marine Harvest Atlantic Canada management team, and as such will be directly involved with the creation of the strategy, business plan, and buildup of the business unit. We can offer competitive conditions and great opportunities for personal and professional development.

Please apply within August 29, 2017 via [www.marineharvest.com/people](http://www.marineharvest.com/people)

If you have any questions regarding the position you can contact Jamie Gaskill at jamie.gaskill@marineharvest.com or phone: (506) 608-2581.
Marine Harvest is the world’s leading seafood company and the largest producer of salmon. Present in 24 countries, each day our 12,700 employees worldwide produce 5.5 million healthy and delicious meals, served to customers across the globe. Marine Harvest covers the whole value and production chain, from feed to plate, and through our vision of leading the “Blue Revolution” we are dedicated to farming the ocean in a responsible and efficient way. With the market for salmon in North America continuing to develop favorably, and with a long established presence in British Columbia, Marine Harvest will now build a new business unit in Atlantic Canada. Recognized as global leaders in sustainability, safety and innovation, Marine Harvest is headquartered in Bergen, Norway, and is listed on the Oslo Stock Exchange.
