

**ADVANCED
DIPLOMA**

FOOD SAFETY

ON CAMPUS

PROGRAM DESCRIPTION

The program places an emphasis on the food quality assurance component of the industry. It is designed to provide a strong technical education in food safety and food inspection.

Courses feature a combination of lectures, workshops, practical sessions, guest lecturers and projects to hone your practical and technical skills. Your work term placement will provide you invaluable practical experience that will help you become an asset to the industry.

ADMISSION REQUIREMENTS

Candidates for admission to the Advanced Diploma in Food Safety must be graduates of an appropriate diploma of technology (three (3) years duration), or a bachelor degree, or a combination of work experience and formal education acceptable to the Admissions Committee, and have completed introductory courses in biology and chemistry.
